

Model Selection for Classification. PR Curve and ROC-AUC

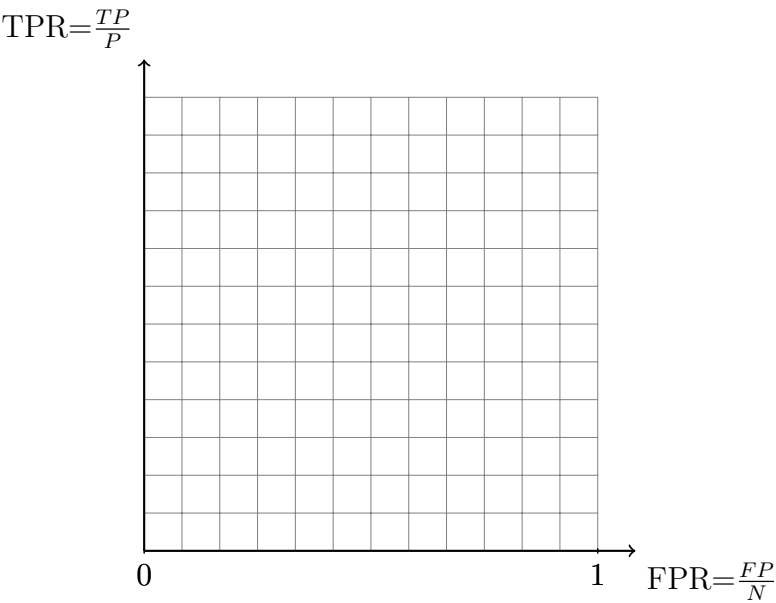

Problem 1. Given the following data

$\langle w, x \rangle$	0.45	-0.1	2	0.3	-0.5	0.7	0
y	+1	-1	+1	+1	-1	-1	+1

Plot the PR curve.

Problem 2. Using the data from Problem 1 plot ROC curve and calculate AUC.

AUC ROC =
